

# CYBERSECURE

## Benefits of the Onsite Logic CyberSecure Program

### Comprehensive Coverage:

- 🌐 DOL EBSA Alignment: Adheres to all 12 elements of the Department of Labor Employee Benefits Security Administration (DOL EBSA) Best Practices, ensuring top-notch security.

### Economical and Efficient:

- 💰 No Hefty Initial Costs: The program eliminates large up-front expenses, making it easy for businesses of all sizes to join.
- 🔄 Spreading the Cost: Associated costs are divided evenly across monthly payments, smoothing out your budgeting process.
- 🤝 Shared Expenditure: Being a part of a collective means that the expenses are shared among all members, making the program exceptionally cost-effective.

### Superior Service and Support:

- 🛠️ Beyond Standard IT MSPs: While covering all standard IT Managed Service Provider services, the program goes a step further to offer even more advanced services but at similar costs to their basic IT program.
- ⌚ Minimal Time Commitment: Designed to be hassle-free, the program demands very little time from your staff or leadership – perfect for businesses that need to stay agile or whose staff is already taxed with work.

### Turn-Key Solution:

- 🔑 All-Inclusive Approach: Every aspect, from training to technical implementations, is taken care of, providing a holistic security solution.
- 📄 Updated Training and Policies: The program includes the most recent and relevant training modules and policy documents, ensuring your organization stays up-to-date and compliant.
- 📁 Minimal Staff Input Needed: With all technical elements and programs included, your staff won't be bogged down by additional tasks.

*Stay ahead of threats and ensure your organization's digital safety with the Onsite Logic CyberSecure program – comprehensive, economical, and effortless.*
